

**Date:** March 18, 2024  
**Subject:** TrackKing™ March Release Notes  
**Location:** e-Tech Library, [ConnectedSuite.com](https://www.connectedsuite.com)

---

**Units:** TriPac 3, Precedent, SLXi DRC, SLXi LOCAL, Large Truck and HK450

**Description:** March release notes for the TrackKing website are listed below.

**Release Notes:**

- **APU Device Update Availability:** Display messages when user attempts to perform device software updates on units with firmware versions earlier than 3.5.0.
- **APU Transfer Unit:** Ability for dealers or customer service managers to transfer units from one customer to another.
- **Trailer, Large Truck, APU, and Heat King:** Ability to add new units that qualify (January 1, 2024) for the 2-years standard telematics offering into Tracking.
- **Bug Fixes:** Miscellaneous minor bug fixes.

Best regards,

**Telematics Support Team**
